Thank you for your interest in an Explorica tour.

Because standards for wheelchair accessibility and other issues of concern to travelers with disabilities vary from country to country, I would like to bring a few important items to your attention.

While we happily welcome all travelers on our tours, the trips are fast paced and can be physically demanding. The tours require a great deal of walking, and our buses are not typically wheelchair accessible. As most countries do not maintain the same strict standards for disabled access, we cannot guarantee accessibility for wheelchairs, walkers, dialysis equipment, guide dogs, or other special aids at hotels, restaurants, public transportation, museums, or other attractions.

Due to these restrictions, you may not be able to fully participate in the tour. We regret that because the restrictions are out of our control, we cannot refund the cost for any activity in which you are unable to participate.

Explorica would hate for these limitations to make you or others in your group disappointed with the tour. Listed below are several resources for travelers with disabilities. I urge you to consider the issues raised here and any others you may find on the following sites. Additionally, be sure to consult with your physician before deciding whether to travel with an educational travel company like Explorica.

If you have any further questions, please do not hesitate to contact us at **1.888.310.7121**.
